Assuring Your Financial Future

THE OLD ADAGE that "money has wings" seems to fit the case of many men whose genius lies in the making of money and not in its conservation.

It is a wise policy, availed of by many, to guard against financial need in old age by setting aside in a trust fund a sufficient amount of money or securities to insure a comfortable income for life. .

This form of trust is known as a voluntary or living trust. It may be drawn to last during the maker's life, and even after his death continue to provide for those dependent upon him; or the maker may retain the power of revoking it and be assured of the return of the principal should his wishes change. He can retain as much or as little control of such a fund as he desires.
